Trium

Trium & UniTrium

KEY ADVANTAGES:

- Independent driving wheel for each row unit
- Maximizes productivity- One person/row
- Sets and packs plant straight up
- 10 cup carousel (optional 12 cup)
- 4,500-5,500 plants/hour/row
- Row-to-row spacings 18" - 48" adjustable
- Plant-to-plant spacings 4" - 80" adjustable

**Trium-
The market leader
for HEMP**

The key difference between the Trium and the UniTrium is that the UniTrium has an independent drive wheel for each row. The Trium drive wheels propel all row units from the hex shaft.

Ideal for transplanting vegetables including:

tomato • lettuce • broccoli • cauliflower • cabbage • celery • melons • tobacco • hemp

UniTrium

Baby Trium

Baby Trium

KEY ADVANTAGES:

- Compact design for 16" row-to-row
 - Ideal for tandem rows- 8" row-to-row
 - Row unit is shorter in length
 - high productivity potential-one person/row
 - 6 cup carousel
 - 4,500-7,000 plants/hour/row
 - Row-to-row spacings 16"-48" adjustable
 - Plant-to-plant spacings 5"-32" adjustable
- All other features same as the TRIUM*

Ideal for transplanting vegetables including:

tomato • lettuce • broccoli • cauliflower • cabbage • celery • melons

tandem toolbar allows 8" row-to-row

Baby Compact

Baby Compact

KEY ADVANTAGES:

- Compact design for tighter row spacing
- 11" Row-to-Row (minimum)
- 4,000-5,000 plants/hour/row
- Maximizes productivity-- one person/row
- 6 cup carousel
- 11"-36" adjustable row-to-row spacings
- 6"-20" in-row spacing (standard), 4"-32" (optional)
- Parallelogram for constant planting depth
- Faces Forward--operators weight on toolbar
- Front to back=95" Height=71"

Ideal for transplanting vegetables including:

tomato • lettuce • broccoli • cauliflower • cabbage • celery • melons

Dual 12 Gold

Dual 12 Gold

KEY ADVANTAGES:

- Ideal for reducing labor
- 1 person sets 2 staggered rows
- Row-to-row spacings 12"-20" adjustable
- Great for twin row beds
- 12 cup carousel
- 5,500-7,000 plants/hour
- Plant-to-plant spacings 6"-20" standard
6"-32" (optional)
