

 MICRON

Spraymiser

Shielded sprayers for band treatment of weeds

The Spraymiser range of shielded band sprayers offers a highly economical and efficient way of controlling weeds in vineyards, bush crops and orchards, as well as roadsides, fence lines and amenity areas.

- Minimised risk of spray drift due to shielded design
- Wide range of working widths
- Traditional hydraulic pressure nozzle or CDA (Controlled Droplet Application) atomiser option for low volume application
- Lightweight, compact and easily fitted
- Compatible with most ATVs, UTVs and tractors
