

Mercury Cannon Trailer Sprayer

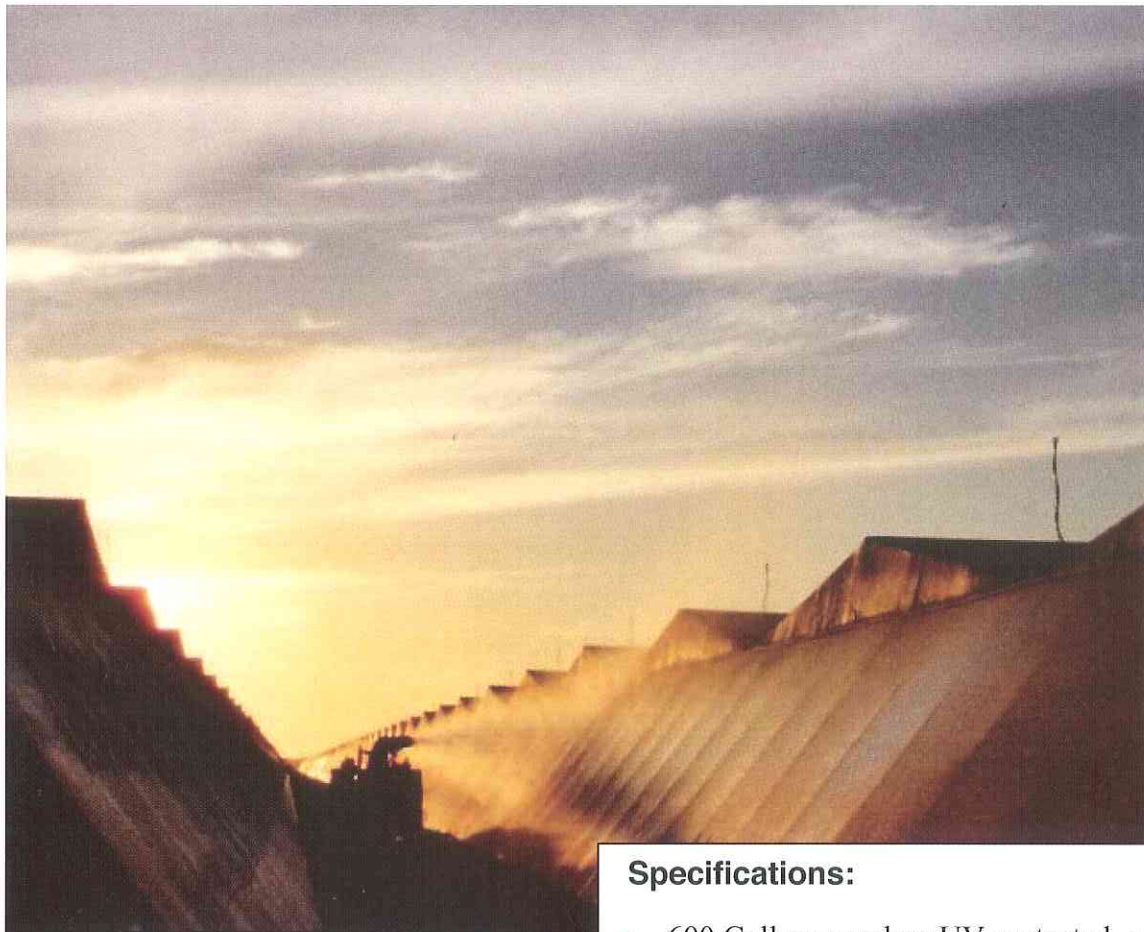

The Mercury Cannon is designed for use in all types of tree crops, ornamental and commercial. Also ideal for fresh vegetables ie; row crop, green houses and shade houses. As well as insect control for dairy cattle.

The Mercury Cannon sprayer is designed for single sided spraying up to 85ft horizontally with excellent overlap and over 40ft vertical. The Mercury Cannon is equipped with a hydraulic motor that allows spout rotation of 200° from left to right in a horizontal position.

It also features a hydraulic tilt cylinder that can angle the spout from +80° to -10° from vertical position. The spout in the vertical position measures 7' 3" from the wheels to the top of the cannon spout. This makes the Mercury Cannon ideal for getting under an 8ft nursery

Specifications:

- 600 Gallon seamless UV protected polyethylene tank
- Hardi® Model 363 pump (32-37 gpm @ 540 rpm)
- Hydraulic spray controls with pressure regulator
- 4 Gallon clean water tank
- Hardi jet agitation
- Large 4" Glycerin filled gauge
- Suction and inline filters
- Remote tank drain
- Single speed gearbox with neutral
- 12.5L-15 tires and rims (Optional 14L X 16.1)
- Adjustable wheel track 48"-52" (rim offset)
- Constant Velocity PTO Shaft
- Turbine fan 1° blade pitch = 11,000 cfm
2° blade pitch = 13,500 cfm
- Optional turning hitch
- Optional handgun
- 200° Spout Rotation
- +80° to -10° spout angling
- Vertical spout height 7'3" Ground to top of spout
- 75Hp Minimum
