

# VARIANT IRIS 1

■ Efficient, robust and safe

## XV IRIS 1

The Variant IRIS 1 provides a TWIN effect to ensure coverage and penetration of even the most difficult and densest crop. Each outlet is equipped with two cone nozzles placed in front of the adjustable air slot, thus creating the TWIN effect and reducing drift and loss of the product to a minimum. The three air vanes in each outlet provide side-ward adjustment of the air supply, so that an even application from both sides onto each row can be made, if necessary.

**FIMA 2010**

**HARDI IRIS**  
Sistema para pulverización en viña

The 8 outlets are mounted in the factory according to each farm's specification, meanwhile each IRIS 1 outlet can easily be adjusted sideways if the distance between the rows needs to be changed.

**Hydraulics required.**  
*If with joystick, 1 double action.*  
*Without joystick 2 double and 1 single action.*

The XV boom is operated fully hydraulically, to provide quick and comfortable height adjustment and folding of the boom. This can be done either via the joystick or directly with the hydraulic lever in the tractor.

### HARDI - Your Sprayer Specialist

#### HARDI INTERNATIONAL A/S

is an international group, whose basic idea is to satisfy the user's requirements for quality products ensuring efficient, punctual and precise application of crop protection products.

Our worldwide distribution and sales network comprise more than 100 countries where we are represented by importers, agents and sales subsidiaries. Our sales subsidiaries are situated in Sweden, Norway, Denmark, the UK, France, Spain, North America, Germany and Australia.

#### More than 50 years of spraying

HARDI was founded in 1957. In 2007 the company joined EXEL Industries, having a group turnover of approx €450 million and employing 2600 people. EXEL Industries is world leader in spraying technology.

EXEL Industries is represented in three major spraying areas: Industry (spray guns and paint application equipment), General Public (hand-operated sprayers for gardening) and Agriculture (field, orchard and vineyard sprayers).
