# PRIMARY SEEDERS

*The LANDSCAPERS CHOICE*

- Innovative Primary Grass Seeders for Prepared Seedbed
- 4', 5' or 6' 3-Point Implement
- *The Seed-N-Pack* uses Single Row of Cultipacker Wheels; *The Landscapers' Choice* prepares the Soil with Pivoting "Walking Beam" Double Row of Cultipacker Wheels
- Seed Chute Distributes Seed evenly across the entire width of machine

- Versatile Metering System can handle a wide variety of Seed Sizes & Types
- Changing Seeding Rates is a Simple handle adjustment
- Ground Driven Metering System is Consistent; Seed Flow Stops when Implement Stops

*The SEED-N-PACK*

**KASCO**  
MANUFACTURING CO., INC.

# OVERSEEDERS

- For Overseeding (Slit Seeding) or Minimum Till Seeding of Lawns, Pastures, Food Plots, or Sports Fields
- 3-Point Models Available in Widths of 3' to 8'; ATV Pull Type Models Available in 4' Width
- 16" Straight Coulters are on an Adjustable Angle Disc Gang, Allowing the Blades to Open the Trench for the Seed
- Coulters are Available on either 3" or 4" Spacing
- Seed Chute Evenly Distributes Seed Across the Width of the Implement
- Versatile Metering System can Handle a Wide Range of Seed Sizes

*The VARI-SLICE*

# CULTIPACKERS

**Heavy Duty Cultipacker  
Roller to Firm and Level Soil  
after Seeding**

- 6' Width = 460#
- 8' Width = 620#
- 3-Point Hitch Mounted
- Heavy Cast Press Wheels
