

Matermacc

Max-Emerge Conversion Kit

Plant the difficult seeds with your Max-Emerge planter with the Matermacc Metering Unit Conversion.

Simply remove the Max-Emerge metering unit and install Matermacc

Check to see that JD drive sprocket is in correct position to accept the Matermacc

Install metering unit and snap into locked position. Use JD drive, fan, and vacuum hose.

The access doors of the Matermacc allow the user to see the singulation of seeds.
