

WZ-A10

SELF-PROPELLED VACUUM PRECISION PLANTER

STANDARD EQUIPMENT:

- 4 stroke engine
- Drive wheels with manual release
- Vacuum metering unit
- Row marker
- 1 seed disc
- Kit for small seeds
- 5 litre seed hopper
- Adjustable shoe opener
- Gearbox
- Closing wheel

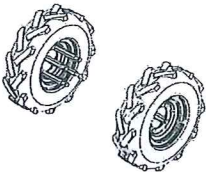

DESCRIPTION

WZ-A10 is a small, manually operated single-row vacuum precision planter. The machine is mainly used to sow maize, chards, soy, sunflowers, rapeseed, beans, fennel, tomatoes, etc. This machine represents a valid alternative for markets where sowing is still mostly carried out by hand.
