

Torreserona, 2012 October 11

Dear Mr. Bob Holly,

Further to our offer dd. 2012/06/18 and your letter dd. 2012/10/01, we have duly noted the dimensions and the two different types of treatments.

On this regard, we have studied a Super Reinforced Booms set, with a 45% over-rate of resistance and specific design.

The Boom-set has got **four outlets "X" type** from our offer dd. 2012/06/18 ; please refer to our offer, point D.

Sale price is 4,330.00€ and we would grant a 42% discount.

The price includes the Hydraulic Folding System.

OPTIONS

-Sturdy hydraulic lift of 1000 mm career **860 € P.V.P.** with a **42% discount.**

-Three electrovalves with electrical controls for 3 cylinders **1361 € P.V.P.** with a **42 % discount.**

The four columns are fitted with a flexible "against-shocks" zone and a lower sliding platform, should the column touch the ground.

Spouts would have a higher diameter, turning by means of a ball-and-socket system.

We are enclosing herewith designs and dimensions (A, B and C models) , so that you can see which the appearance of the booms would be.

Please make attention about the total height of the booms, in order to prevent any kind of problem.

These Booms would benefit of a **16 year Guarantee against breakage and 14 year guarantee for painting defects.** If you order it with a hot galvanized finishing, 150.00€ NET should be added to the price and **the Guarantee against corrosion would be of at least 16 years.**

Delivery time for the Equipment and Booms manufactured on request during our low season (from October to February) is 30 working days.

**FABRICA DE ATOMIZADORES, PULVERIZADORES,
NEBULIZADORES, ESPOLVOREADORES Y EQUIPOS DE PODA**

Hoping that our offer will be of interest, we take this opportunity to convey to you and your staff our best regards

Juan Buira Cluet
